Educational Objectives

Provide the required didactic instruction for BCIA certification or recertification.

Provide hands on practicum for attendees to learn to operate hardware, software and run a training session. (We will go through this thoroughly on the practicum day. It will only be referred to as needed during the rest of the course).

Discuss clinical assessment, protocol development and client care.

The neurofeedback bootcamp course forms part of a global international initiative (GNI) organized by Stress Therapy Solutions Inc., the neurofeedback and QEEG educational company which has chosen BrainMaster equipment as its equipment of choice.

To attend, however, you do not need to own any specific equipment.

Please note that the hands on practicum day will be working with BrainMaster equipment and software.

This document gives basic information. More formal and in depth information is now available on the Stress Therapy Solutions website at www.stresstherapysolutions.com which also conveniently invites you to register on line via PayPal or via telephone with workshop co-ordinator, Lisa Mrklas (lisastsinc@aol.com) at 1-216-766-5707 or 216-990-6874!

You may also pay via PayPal, Visa or MasterCard Credit Cards by contacting Lisa at the above numbers.

Please note – payment for the 4 day didactic course is payable directly to Stress Therapy Solutions as they are the organizers and owners of the course. I work under them. Before payment, please check whether it is cheaper to pay via PayPal or to use a credit card.

Payment for the training day should be made directly to me. Banking Details: Standard Bank, Killarney. A/c # 001679988.

If you require any further information, clarification or assistance, do not hesitate to contact me either via email or in the evening on my cell – 083 468 5930.

In the interim, if you would confirm with me your intention to attend the course, I would be grateful as it will facilitate organization.
